

## Unlocking Potential: INKEY Tailored Learning Programs

Contextos, in partnership with four other international organizations (Lascò-IT, Femxa-ES, KEAN-GR and CSI-CY), is pleased to present the second intellectual output (IO2) of the INKEY project, the "Tailored Learning Programs." This pioneering approach aims to make a significant impact on the lives of NEETs (young people not in education, employment, or training) and the professionals dedicated to empowering them.

## Reimagining Empowerment

At the core of this initiative are three fundamental objectives:

1. **Enhancing Empowerment Actions:** We commit to elevating the quality and effectiveness of organizations and professionals dealing with young NEETs. By providing innovative tools and approaches, our goal is to make these empowerment actions more impactful than ever.
2. **Preparing Youth Leaders and Professionals:** To achieve our goals, we believe it is essential to empower those who empower young people. We provide youth leaders, youth professionals, and trainers with the knowledge, skills, and innovative tools needed to create significant changes in the lives of young NEETs.
3. **Unlocking Key Competencies:** Our ultimate goal is to unleash the dynamic potential within each young NEET. We are working to enhance their key competencies, enabling them to regulate their emotions, tackle complexity, thrive as individuals, act as responsible social agents, and cultivate a continuous appreciation for learning.

## **The "Learning Blocks" Approach**

What makes IO2 truly unique is the "Learning Blocks" approach. Each competency category brings together a selected set of activities designed to promote knowledge and skills in various areas. Here's what you can expect to find in each activity table:

**Expected Learning Outcomes:** Clearly defined objectives for participants.

**Group Size and Format:** Guidelines on group size and whether the activity can be conducted online or in person.

**Time Required:** Estimates of the time needed to complete the activity.

**Instructor Preparation:** Tips and steps for instructors to prepare effectively.

**Activity Conduct Instructions:** Detailed, step-by-step instructions to facilitate engaging sessions.

**Materials Needed and Additional Resources:** Lists of necessary materials and additional resources for further learning.

These Learning Blocks serve as a practical guide for youth professionals, enabling them to implement customized activities aligned with the goals of our program.

## **Join Us**

The Tailored Learning Programs represent months of dedication, research, and innovation. These programs reflect our commitment to creating positive changes in the lives of young NEETs.

We invite you to join us in this initiative! Subscribe to our newsletter for updates and resources as we continue to empower and transform lives.

The INKEY project is a consortium formed by prominent organizations in the education and youth sector, aiming to provide innovative programs for young NEETs to develop key competencies highlighted in LifeComp. Through the use of engaging digital tools and online communities of practice, the project seeks to empower young people for personal and professional success.
